

Safe & Alive

Disarming Montana's Biggest Killer

A statewide message
brought to you locally by
Montana Safe Kids Safe Communities

GET THE FACTS ON MONTANA'S BIGGEST KILLER: MOTOR VEHICLE CRASH INJURY

This presentation of facts empowers Montanans to make the right personal, parental and policy choices. Using statistics and studies from the Montana Department of Transportation, the National Highway Traffic Safety Administration, the Children's Hospital of Philadelphia, and other credible sources, it shows and tells the facts about death and injury on Montana roadways.

To provide a better understanding of issues that touch Montanans everyday, Safe Kids Safe Communities coalition leaders will be delivering it across the state, helping to educate people within each community.

An online video version of the presentation is also available, to supplement the community deliveries and discussions. The 16 minute video is narrated by its developers, and includes graphics, videos and facts that paint a clear picture of Montana deaths and injuries, as well as ways to prevent or reduce them. ***View the video presentation online:***
